

Creating Thank You message or using a Redirect Page to direct customers to another website once they click Submit on a survey.

NOTE: If you use Upload Redirect Page option, you need to create your message first.

You can change the thank you message a customer receives after clicking submit OR

Direct them to another website; such as yours.

BUT you cannot do both.

The screenshot shows the 'Edit Survey' page in Microsoft Internet Explorer. The address bar displays 'http://thatsbiz.leadmachine.promero.com/Admin/Survey/editSurvey.aspx?SurveyId=307'. The main content area contains several settings sections:

- Survey Settings:** Includes dropdown menus for 'Auto Assign FPOK Transfer' (No), 'Send to PSCRM' (Yes), 'Allow Callbacks' (No), 'Auto Proof' (Yes), 'Survey Destination' (Lead), 'Display Rank Numbers' (No), and 'Enable Dialer' (No).
- Upload Options:** Includes 'Upload Header', 'Upload Footer', and 'Upload Redirect Page', each with a 'Browse...' button.
- Redirect Location:** A text input field with a 'Manage Flights' button below it.
- Order Form Setting:** Includes a checkbox for 'Order Form', and input fields for 'Merchant Account', 'Tax State', and 'Tax Percent (6.25)'.
