INTEGRATION BENEFITS

- *Actionable Data that integrates with Covid-19 test data repository.*
- *Salesforce Maps integration allows individuals to find a testing facility near them.*

DMGapp is the only complete COVID-19 scheduling app

- **Appointment Scheduler** – DMGapp provides communities with an easy online method to complete a health survey and schedule a COVID-19 test at a nearby testing facility.
- **Actionable Data** – DMGapp uploads relevant and timely data to COVID-19 data repositories so policy makers can make decisions based on real-time data.
- **Customizable Certificates** – once an individual's test results are in, DMGapp can generate a 'Safe to Work' Certificate or some similar message showing that they have been screened

1
**LOG IN ANYTIME,
ANYWHERE**
Create your account – log in from your computer or smartphone any time of day, from anywhere.

2
**TAKE THE ONLINE
QUESTIONNAIRE**
Take the online survey, it's easy as that. Our online questionnaire will take you through a series of questions in 5 minutes.

3
**SCHEDULE YOUR
COVID-19 TESTING
APPOINTMENT**
Your questionnaire will be reviewed and if needed, you will be able to schedule an appointment at the nearest testing location.

Using our simple 3-step process, patients set the appointment on their mobile device and are directed to the nearest COVID-19 testing location.

Built on Salesforce Health Cloud

DMGapp is built on Salesforce, the world's largest customer relationship management software provider with 150,000+ customers worldwide. Salesforce fully supports HIPAA Security Rules, encryption protocols and maintains a comprehensive set of compliance certifications and attestations to validate this trust.

DMGapp Appointment Scheduling Application with Integrated Maps

Once individuals complete their online health survey, they can schedule a COVID -19 test at a location near them.

"Safe to Work" Certificate

Optional 'Safe to Work' Certificate

Once a person gets their COVID-19 test results, DMGapp can send a 'Safe to Work' certificate or some other customized message based on those results. Individuals can use the certificate to show an employer that they have been screened and could be deemed 'Safe to Work'.

TWO DEPLOYMENT OPTIONS:

U.S. Government and Government Contractors

DMGapp is available to government and government contractors. DMGapp can be deployed in Salesforce Government Health Cloud. Salesforce Government Cloud is a partitioned instance of Salesforce's industry-leading platform as a service (PaaS) and software as a service (SaaS). Risks to customers and their information are managed through a rigorous security monitoring and remediation program aligned with FedRAMP and DOD requirements.

Non-Government, Commercial and Non-Profit Organizations

DMGapp is available to all for-profit and non-profit organizations. DMGapp is deployed in Salesforce Health Cloud. With respect to providing and operating the Salesforce Covered Services, Salesforce complies with the provisions of the HIPAA Security Rule that are required and applicable to it in its capacity as a business associate. In addition, Salesforce also provides customers with customer-controlled security features in the Salesforce Covered Services, which may help HIPAA-regulated customers address stringent security requirements that starts with a unique multitenant architecture giving you an out-of-the-box layer of security. DMG provides Salesforce Health Cloud license as a SaaS embedded service. No additional Salesforce licenses required.
